

Improving as we go

This year, to better support at-risk, rural, and underrepresented youth we:

- Provided **27 hours of direct Spanish interpretation** to help families with enrollment
- **Collaborated with local school counselors** to reach more at-risk youth
- Increased opportunities for more geographically isolated youth and **invested over \$12,000 towards student transportation**
- Collaborated with 6 new partners to provide **programming that meets the diverse needs and interests of our youth**, including: LGBTQ+ affinity programming, youth grief support services, sailing, and 1:1 mentorship

Who did we reach?

Over 13% (72) live in Spanish-speaking homes

Over 15% (81) were at risk of academic failure

Nearly 10% (49) experience an unstable living environment (unhoused, experiencing neglect or abuse)

8% of youth (43) live with a documented physical or mental disability

“ This program helped my child's mental, social and physical health. I am happy to see her interact and make new friends and learn new things everyday. The program keeps her on a regular schedule just like going to school but its more fun and interactive. Thank you for making my daughter a happy camper ”
